

GPT IMAGE 2

TESTING & COMPARASION

Presented By:
Karan Kumar.S

INTRODUCTION

CHATGPT IMAGES 2.0 IS A NEXT-GENERATION IMAGE MODEL DESIGNED TO HANDLE COMPLEX VISUAL TASKS AND GENERATE PRECISE, PRODUCTION-READY VISUALS. IT OFFERS STRONG INSTRUCTION FOLLOWING, ACCURATE OBJECT PLACEMENT, AND HIGH-QUALITY TEXT RENDERING ACROSS DIFFERENT ASPECT RATIOS.

WITH IMPROVED COMPOSITION AND VISUAL UNDERSTANDING, OUTPUTS FEEL MORE NATURAL AND PROFESSIONALLY DESIGNED RATHER THAN AI-GENERATED. THE MODEL ALSO SUPPORTS MULTIPLE LANGUAGES AND USES ENHANCED WORLD KNOWLEDGE TO CREATE SMARTER RESULTS WITH MINIMAL PROMPTING.

ADDITIONALLY, IMAGES 2.0 INTRODUCES THINKING CAPABILITIES, ENABLING FEATURES LIKE WEB SEARCH, MULTI-IMAGE GENERATION FROM A SINGLE PROMPT, AND SELF-VALIDATION—MAKING IT MORE POWERFUL FOR ACCURACY, CONSISTENCY, AND ADVANCED WORKFLOWS.

GPT IMAGE2.0

NANO BANANA PRO

REFERENCE IMAGE

THIS TEST COMPARES BOTH MODELS FOR TEXT ACCURACY, VISUAL QUALITY, DETAIL, LOGO PRECISION, AND CORRECT PERSPECTIVE.

GPT IMAGE2.0

GANZKÖRPERTRAINING STÄRKER. GESÜNDER. DU.

Effektives Training für jeden Muskel.
Stärkt den Körper, verbessert die
Haltung und fördert langfristiges
Wohlbefinden.

Stärkt die Muskulatur
Effektives Training für Arme,
Beine, Rücken und Rumpf.

Schont die Gelenke
Sanfte Bewegungsführung
für ein sicheres Training.

Mehr Kraft im Alltag
Verbessert Haltung, Stabilität
und Leistungsfähigkeit.

Für jedes Fitnesslevel
Individuell anpassbar – ideal für
Einsteiger und Fortgeschrittene.

WISSENSCHAFTLICH BELEGT

Regelmäßiges Krafttraining kann die Knochendichte
erhöhen und das Verletzungsrisiko reduzieren.

NANO BANANA PRO

GANZKÖRPERTRAINING STÄRKER. GESÜNDER. DU.

Effektives Training für jeden Muskel.
Stärkt den Körper, verbessert die Haltung
und fördert langfristiges Wohlbefinden.

– Stärkt die Muskulatur

– Schont die Gelenke

– Mehr Kraft im Alltag

– Für jedes Fitnesslevel

WISSENSCHAFTLICH
BELEGT

GPT IMAGE2.0

Komfortabler Lauf

Gelenkschonender Laufgürtel
für sanftes Training – reduziert
Aufprallkräfte, schützt Knie
und fördert Komfort

5-lagiger
Dämpfungsgürtel
Reduziert Aufprall
und schont Gelenke

Schutz für Knie
und Gelenke
Minimiert Belastung
bei jedem Schritt

Leiser Betrieb
Perfekt für Zuhause,
Arbeiten und Training

NANO BANANA PRO

Komfortabler Lauf

Gelenkschonender Laufgürtel
für sanftes Training – reduziert
Aufprallkräfte, schützt Knie
und fördert Komfort.

Dämpfungssystem

Knieschutz

Leiser Betrieb

REFERENCE IMAGE

THIS TEST COMPARES BOTH MODELS FOR MACHINE PLACEMENT, CORRECTED PERSPECTIVE, PROMPT UNDERSTANDING, AND COMPOSITION USING MULTIPLE REFERENCE IMAGES.

NANO BANANA PRO

GPT IMAGE2.0

NANO BANANA PRO

GPT IMAGE2.0

PRO

1. HIGH CREATIVITY & VISUAL QUALITY

GENERATES VISUALLY APPEALING AND ARTISTIC IMAGES
STRONG SENSE OF COMPOSITION, LIGHTING, AND AESTHETICS

2. ADVANCED INSTRUCTION UNDERSTANDING

HANDLES COMPLEX AND DETAILED PROMPTS EFFECTIVELY
ACCURATELY UNDERSTANDS.

3. STRONG TEXT RENDERING

STRONG TEXT RENDERING CAN GENERATE CLEAR AND
READABLE TEXT INSIDE IMAGES USEFUL FOR: POSTERS ,UI
MOCKUPS ,MARKETING VISUALS.

4.FLEXIBLE ASPECT RATIOS

WORKS ACROSS: SQUARE, PORTRAIT,LANDSCAPE
MAINTAINS COMPOSITION QUALITY ACROSS FORMATS

CONS

1.RESULTS HARD TO MAINTAIN

- SAME CHARACTER
- SAME PRODUCT
- SAME ENVIRONMENT

2.REALISM & SKIN TONE

- SLIGHTLY HIGH SKIN TONE
CONTRAST AND LOOK LIKE THE AI
CHARACTER FEEL.

3.PRODUCT PLACEMENTS

- IN SOME CASES, PRODUCT PLACEMENT
AND CHARACTER POSITIONING DO NOT
ALIGN PERFECTLY WITH PROPER
PERSPECTIVE, MAKING THE SCENE LOOK
LESS ACCURATE

4.IMAGE QUALITY

- OUTPUT MAINLY IN 2K RESOLUTION

CONCLUSION

BOTH NANO BANANA PRO AND GPT IMAGE 2.0 ARE HIGHLY CAPABLE IMAGE GENERATION MODELS, EACH PERFORMING STRONGLY WITHIN THEIR RESPECTIVE STRENGTHS. IN OUR EVALUATION, BOTH MODELS DELIVERED COMPARABLE RESULTS IN TERMS OF OVERALL OUTPUT QUALITY AND CAPABILITY.

NANO BANANA PRO STANDS OUT IN:

- CHARACTER REALISM
- NATURAL LIGHTING ACCURACY
- PRECISE CHARACTER PLACEMENT AND CONSISTENCY
- OVERALL PRODUCTION-READY QUALITY.

GPT IMAGE 2.0, WHILE PERFORMING WELL, SHOWS SOME LIMITATIONS:

- CHARACTER SKIN TONE CONTRAST TENDS TO BE SLIGHTLY HIGHER THAN REALISTIC LEVELS
- CHARACTER REALISM IS COMPARATIVELY LESS REFINED
- OUTPUT RESOLUTION IS TYPICALLY AROUND 2K, WHEREAS PLATFORMS LIKE HIGGSFIELD CAN PROVIDE 4K OUTPUT (WITH HIGHER CREDIT COST).

OVERALL STRATEGY

WE WILL CONTINUE USING NANO BANANA PRO AS OUR PRIMARY PRODUCTION TOOL, WHILE GPT IMAGE 2.0 WILL BE USED FOR INITIAL CONCEPT CREATION AND FIRST DRAFT DEVELOPMENT. WE WILL ALSO KEEP MONITORING FUTURE UPDATES OF THE GPT MODEL, AS IT HAS STRONG POTENTIAL TO IMPROVE ITS CURRENT LIMITATIONS.

THANK
YOU.
